If your child is comfortable playing with crayons, then this book will build on that foundation. Use this book to help your child solidify basic pencil skills while learning the names of colors.
Why should you choose a Kumon Workbook for your child?

- Our Workbooks are based on the "Kumon Method," a learning system designed to help each child reach his or her full learning potential.
- Concepts are introduced in a step-by-step manner that allows the child to master each in turn without frustration.
- Through Kumon Workbooks, children gain confidence in their abilities and are motivated to learn on their own.
- We believe in creating the best possible products for children, so our workbooks never compromise on content or quality.
To parents:
Your child will practice filling in white areas in the following illustrations. It’s okay if your child can’t color the entire white spot neatly, and don’t be concerned if he or she colors outside of the lines.

* Color the white area below.
Using a **yellow** crayon, draw a line from the arrow (↓) to the star (★), connecting ...
2 Camel

* Color the white area below.

brown
Using a brown crayon, draw a line from the arrow (↓) to the star (★), connecting...
3 Hippopotamuses

* Color the white area below.
Using a **red** crayon, draw a line from the arrow (↓) to the star (★), connecting **...**
4 Fox

* Color the white area below.

example

orange
Using an orange crayon, draw a line from the arrow (↓) to the star (★), connecting.
5 Lion

* Color the white area below.
Using a **brown** crayon, draw a line from the arrow (↓) to the star (★), connecting **.”**
6 Anteaters

* Color the white area below.
Using a black crayon, draw a line from the arrow (↓) to the star (★), connecting.
To parents:
On this page, your child will be asked to choose two colors. If he or she seems to be having difficulty, you can offer to help choose the crayons.

* Color the white areas below.
Using a green crayon, draw a line from the arrow (↓) to the star (★), connecting .
Color the white areas below.
